Abstract

The essay chooses all students, party members or non Party member, of the land and resources College in China West Normal University as the research object, through the questionnaire investigation to discuss the advanced role of college students as party members playing to provide empirical basis for promoting college students party members to play a role in the advanced nature. According to the survey, generally, college students party members play a good role, but there are still some problems. We are aiming at finding problems and coming up with corresponding suggestions to improve the effectiveness of the advanced role of college students party men bet the playing.

Key word: Student party members; Advanced nature; Investigation and study;

1. Introduction

The party members of college students is a special group of students. They are shouldering the mission of the party and the country to prosperity. Colleges and universities should pay attention to the effects of the advanced nature of Party members of college students played, actively encourage and promote the college student party members to play an exemplary role, which is not only beneficial to help college students improve their party spirit and practice the theory level, but also conducive to cultivate a sense of social responsibility, and good image of Party members of College students.

2. The investigation process

2.1. The object of investigation

In order to understand the real situation of the advanced nature of the land and resources college of China West Normal University students party members playing, the author designs a questionnaire for college student party members and the masses of the students. The questionnaire is divided into AB volumes, volume A for college students who are party members or will be from freshman to senior student; B volume for college student masses. A total of 500 questionnaires (including 170 A volume, 330 B volume), 485 questionnaires were recovered, the recovery of A included 165 questionnaires, 163 valid questionnaires. The recovery rate was 97.1% and the effective rate was 98.8%; the recovery of B was about 320 questionnaires, but 305 valid questionnaires. The recovery rate was 96.9%. Efficiency is 95.3%.

2.2 Survey method

This research adopts the method of literature and questionnaire, the questionnaire survey was carried out anonymously, questionnaire volume two versions for A volume and the purpose of B is to the actual situation in order to view of College Students Party members to play a role in the selection of advanced. So the different research objects make our research more objective justice.

2.3. Survey tool

The questionnaire used questionnaire, a total of 21 questions, open and closed, mainly from several aspects: motives for joining the party, party spirit, service consciousness, role models and the masses to carry out inspection and supervision of questionnaire design, using the statistical program SPSS for Window 18.0 on the recovery of the data analysis system.

3. Analysis

3.1. Investigation on the cultivation of students' Party spirit

From the survey data, there were 31.7% and 27.1% of the students party members through the studying the theory of the party and in politics setting a good example to strengthen their party spirit and 21.9% and 19.3% of the students party members by improving their own moral self-cultivation and cultivate fine style of work to strengthen its the party spirit by 19.3% of the students surveyed students party members; and the masses in 15.3% of the students think party spirit training is very high, 30.5% of the students think party spirit is relatively high, 48.8% of the students think party spirit training in general, there are 5.4% of the students who think party spirit training is low. As a member of the Communist Party, we must be firm belief in communism, and strive to improve the quality and cultivation of their theoretical level, set up the lofty ideals of communism, play a positive role in the study of political theory, strengthen the theoretical quality and help organize learning activities about the party constitution, Deng Xiaoping theory and three represents, strive for excellence and create excellence and three serious and three real, improve their self-cultivation in practice, cultivate fine style of their own, to play the advanced role of Party members.

3.2. On the survey of the students' Party members to fulfill the purpose of serving the people by heart and soul

Survey data about the surveyed students party members to fulfill the purpose of serving the people wholeheartedly shows: 30.4% of the students party members maintain the interests of the students, 24.3% of students party members in the conflict of interests think others go first, 28.9% of the students party members of students have difficulty in giving help, 16.4% of the students party members of the ideological problems of the students can have take the initiative to enlighten the masses of Party members and students; students' evaluation of the service consciousness of party members shows that 32.4% of the students think party service consciousness is strong, 51.4% of the students think party service consciousness of party members is ok, 10.6% students think that party member students rarely have the sense of service, even 5.9% think the party member students do not have service consciousness. Serving the people wholeheartedly is the fundamental purpose of our party. In the environment of the school, serving the people is the service for students. student Party member advanced play the advanced role is to implement the dedication service for the students. The service will be extended to the students learning, work and life. The party member should do practical things and good things for the majority of, to help students solve practical difficulties in life, to serve our students as the starting point and end point, establish only "serving the masses to absorb the masses, the masses won" thinking, enhance the awareness of Party members in the service of the masses, really play the advanced role of Party members.

3.3 Investigation on the close ties between the party members and the masses

From the survey data, 30.2% investigated students party members by participating in activities contact masses, 20.4% by individual talks, 4.8% by mail, and 44.6% through the network communication contact with the masses. Students for understanding the degree of contact with the masses of students that is: 24.7% think they have very close ties with the masses 54.5% students think that party members and the masses have closer contact, 16.3% of the students think the party ties with the masses is not very close, and there are 4.5% of the students who don't think the party have close ties with the masses. Contact and understanding of the masses is the basis of serving the people, student party members should often go to the students to understand the situation, to communicate and exchange with the students, respect students in thought, emotion, life ,close students, understand students thoughts and needs, and help with the masses. The student party members in the process of contact with the masses, not only reflect the wishes and needs of the majority of students to the higher authorities through the understanding, but also convey important decision and system of the party and only in this way, can the student party members both inside and outside the party, between teachers and students and between the students really play the role of bridge and tie to close the party organizations and the masses.

3.4 Investigation on the students' Party members accepting the examination and supervision of the mass

According to the survey data ,it shows that the surveyed students party members to accept supervision by the masses as follows: 39.3% the student party members with the masses in the discussion to accept the

inspection and supervision of the masses, 42.5% of the student party members through the evaluation of public opinion to accept the supervision and inspection of the masses, and 18.2% of the students party members through their own learning, work, publicity life situation to accept the supervision and inspection of the masses. Students accept the masses of inspection and supervision is: 52.4% of the students think that most party members consciously accept the supervision and inspection, 8.3% think that only a small part of the students consciously accept the inspection and supervision, and 9.3% of the students think accepting the inspection and supervision of the masses is almost not. Whether the masses are satisfied is to check the work of the party members and the success of the primary standard. It is necessary through the masses to inspect and supervise the evaluation of Party members, to test the effectiveness of the advanced role of Party members. The student party members conscientiously fulfill the duties of Party members, and consciously accept the supervision and inspection of the students, carry out criticism and self-criticism, find their own weaknesses and gaps in the party standard and more stringent demands on themselves, in order to really play a vanguard role, do a real "advanced campus".

4. Conclusion

We are investigating the China West Normal University which is just one of the many colleges and universities nationwide. Many students in the school is only a part of the students surveyed, although not representative of all Party members and the masses of students, but it is undeniable that these data clearly show some problems of high school student party members in the current part of the student party members whose political quality is not high with weak political consciousness, political conception; and part of the student party members lack of theoretical knowledge in fuzzy belief; even part of the student party members do not understand, do not touch, only focus on the pursuit and development of self. The majority of students did not take into account the ideas and requirements; there are some party members do not accept the inspection and supervision. Objective we must be aware of these problems, we can be targeted to rectify the student party members, improve the system, standardize the student party to join the party process, and purify the student Party member's thought. Let student party members keep their party membership, conscientiously carry out the Party member responsibility, actively play the role of Party members in advance the masses.
